ABILITIES

WRITING

I'm well versed in writing compelling stories with thematic depth as well as dialogue. I love clear and direct briefs when writing for others.

DIRECTING

I'm talented at visualizing a strong narrative direction. I find it super satisfying to support a team in working together in order to see a vision come to life.

DESIGNING

I make sure to describe my design documents in a way that is both detailed and comprehensible. I enjoy creating graphs and visual aids to fit my team's needs.
